

PART 1

Municipal Corporation of Greater Mumbai (MCGM / BMC)

The Brihanmumbai Municipal Corporation (BMC), officially known as MCGM, is the civic body responsible for the infrastructure and civic administration of Mumbai. It is one of the richest municipal corporations in India.

Official Website: mcgm.gov.in

Helpline: 1916 (BMC 24x7 Helpline)

Jurisdiction: City of Mumbai (Island City + Suburbs + Extended Suburbs)

Ward Offices: 24 administrative wards

1.1 Citizen Charter

The BMC Citizen Charter defines the rights of citizens and the service standards the corporation commits to deliver. It covers response times, escalation paths, and redressal mechanisms.

Core Citizen Rights

- Right to receive civic services within defined time limits
- Right to information about service status
- Right to register grievances and receive acknowledgement
- Right to appeal if services are denied
- Right to clean public spaces, pothole-free roads, and functioning streetlights

Key Services & Committed Timelines

Service	Committed Timeline
New water connection	30 working days
Birth certificate	7 working days
Death certificate	7 working days
Building plan approval (simple)	60 days
Property tax name transfer	30 working days
Pothole repair complaint	7 days (main roads), 15 days (internal roads)
Streetlight complaint	3 working days
Drainage complaint	24 hours (emergency), 7 days (routine)

Solid waste complaint	24 hours
------------------------------	----------

Grievance Redressal

- Step 1: Register complaint at ward office or online portal (portal.mcgm.gov.in)
- Step 2: Receive acknowledgement number within 24 hours
- Step 3: If unresolved, escalate to Assistant Commissioner (ward level)
- Step 4: Further escalation to Deputy Municipal Commissioner
- Step 5: Final appeal to Municipal Commissioner

RAG NOTE: Q: How do I file a BMC complaint? A: Visit portal.mcgm.gov.in, click 'Grievance', fill in your ward, address, complaint type, and attach a photo. You receive an SMS acknowledgement with a complaint number.

1.2 Property Tax

Property tax is the primary source of revenue for BMC. It is levied annually on all properties within Mumbai's jurisdiction including residential, commercial, and industrial.

Capital Value System (CVS)

Mumbai uses the Capital Value System to calculate property tax. Tax is computed as a percentage of the property's capital value (market value).

Component	Details
Tax Base	Capital Value of Property
General Tax Rate	0.316% of capital value (residential)
Education Cess	Included in the general tax rate
Water & Sewerage Benefit Charge	Separate levy on tax bill
Assessment Year	April 1 to March 31
Payment Deadline	June 30 (first half), December 31 (second half)
Late Payment Penalty	2% per month on outstanding amount
Rebate for early payment	4% rebate if paid in full before June 30

How to Calculate Property Tax (Formula)

Property Tax = Capital Value x Tax Rate x Usage Factor

- Capital Value = Ready Reckoner Rate (RR Rate) x Built-up area
- Usage Factor: Residential = 1.0; Commercial = 4.0; Industrial = 3.0
- Occupancy Factor: Owner-occupied = 1.0; Tenanted = 0.9

Exemptions

- Properties below 500 sq ft carpet area owned by individual (self-occupied): 100% exemption
- Government-owned properties used for public purposes
- Places of worship, educational institutions (government-aided)
- Properties of ex-servicemen (partial exemption - check ward office for current rules)

Online Payment Steps

1. Go to mcgm.gov.in and click 'Property Tax'
2. Enter your Property Account Number (PAN - not income tax PAN)
3. Verify property details shown on screen
4. Choose payment: Full year, Half year, or Arrears only
5. Pay via Net Banking, Credit/Debit Card, UPI
6. Download receipt immediately (also emailed)

Name Transfer (Mutation)

When a property is sold or inherited, the property tax records must be updated (mutation).

- Documents required: Sale deed / inheritance documents, ID proof, latest paid tax receipt
- Fee: Rs. 500 per application
- Timeline: 30 working days
- Apply at: Ward property tax office or online portal

RAG NOTE: Q: My property tax bill shows wrong area. What to do? A: Visit your ward property tax office with the original sale deed showing correct area. Submit Form PT-1 for correction. The process takes 15 working days.

1.3 Building Permissions & Development Control Regulations (DCR)

All construction, renovation, and development activities in Mumbai require prior approval from MCGM under the Development Control and Promotion Regulations (DCPR 2034 - current applicable regulations).

Types of Permissions

Permission Type	When Required
Commencement Certificate (CC)	Before starting any new construction
Building Plan Approval	For new buildings or additions above ground floor
Occupation Certificate (OC)	After construction completion, to occupy legally
Part OC	For phased occupation of large buildings
Completion Certificate	For completed work up to 2 floors without OC
Plinth Completion Certificate	After foundation work is done

Key DCR Rules - Residential (Summary)

- FSI (Floor Space Index): Varies by zone. Island City = 1.33 base; Suburbs = 1.0 base. With TDR/premiums can go higher.
- Minimum plot size: 25 sq m for row house; 50 sq m for detached
- Minimum road width: 6m for residential access; 9m for commercial
- Setbacks: Front = 4.5m (main road); Side = 1.5m to 3m depending on height
- Maximum height: As per airport authority NOC and fire department clearance
- Open space requirement: 10% of plot area for plots above 1000 sq m

Building Plan Approval Process

7. Submit application on MCGM portal with architect-certified drawings
8. Documents: Title deed, property card, Index II, NOCs (fire, airport if needed), structural drawings
9. Scrutiny fees paid online at submission
10. Deemed approval if BMC does not respond within 30 days (Deemed CC rule)
11. Site inspection by ward engineer
12. CC issued; construction can begin

Fees (Scrutiny Charges)

Category	Fee
Residential up to 50 sq m	Rs. 2,000
Residential 50-300 sq m	Rs. 5,000
Residential above 300 sq m	Rs. 10,000
Commercial (all sizes)	Rs. 15,000 base + Rs. 100/sq m
Premium FSI charges	As per RR Rate (varies by location)

RAG NOTE: Q: What happens if I construct without BMC permission? A: BMC can issue a Stop Work Notice, impose penalties up to Rs. 5 lakh, and demolish unauthorized portions. Under Section 354 of MMC Act, a fine of Rs. 25,000 per day can be levied during unauthorized construction.

1.4 Water Connection Procedure

Water supply in Mumbai is managed by BMC's Hydraulic Engineering Department. Connections are provided from BMC water mains to individual properties.

Types of Connections

- Domestic (Residential): For individual homes/apartments
- Commercial: For shops, offices, hotels
- Industrial: For factories and manufacturing units
- Bulk Supply: For housing societies, large buildings

New Connection Application Steps

13. Obtain form from ward hydraulic office or download from mcgm.gov.in

14. Attach documents: Property card, Proof of ownership, BMC property tax receipt (latest), Plumbing contractor license, NOC from society (if applicable)
15. Submit at Hydraulic Engineer's office of respective ward
16. Pay connection fee (see table below)
17. Site inspection by BMC hydraulic team
18. Connection provided and meter installed

Connection Fees & Water Charges

Category	Connection Fee
Domestic (up to 15mm)	Rs. 7,500
Domestic (20mm)	Rs. 12,000
Commercial (20mm)	Rs. 20,000
Industrial	Rs. 30,000+
Bulk supply (per KL)	Varies

Water Complaint Types & Contacts

- No water supply: Call 1916 or log on portal - resolved within 24 hours
- Low pressure: Lodge complaint at ward office - inspection within 3 days
- Water leakage from BMC pipe: Emergency team dispatched within 4 hours
- Quality complaint: Sample testing by BMC lab within 7 days

RAG NOTE: Q: My water meter is not working. Who do I contact? A: Submit a written complaint to your ward Hydraulic Engineer. BMC will inspect within 7 days and replace the meter if faulty. You will not be charged for estimated usage during the faulty period; billing will be based on past 3-month average.

PART 2

Urban Governance & Government Schemes

The Ministry of Housing and Urban Affairs (MoHUA) administers several flagship schemes for urban development in India. Mumbai benefits from multiple central and state schemes.

2.1 Swachh Bharat Mission - Urban (SBM-U 2.0)

SBM-U 2.0 (2021-2026) focuses on making cities 'Garbage Free' by targeting solid waste management, wastewater management, and plastic elimination.

Key Objectives

- Complete elimination of open defecation (ODF++)
- 100% source segregation of waste (Wet, Dry, Hazardous)
- Scientific processing of all solid waste generated
- Remediation of all legacy dumpsites
- Reduction of single-use plastics

Mumbai Specific Implementation

- Mumbai generates approximately 7,000-7,500 metric tonnes of waste daily
- BMC manages waste through 3 processing sites: Deonar, Mulund, and Kanjurmarg
- Wet waste: Goes to composting/biogas plants
- Dry waste: Channeled to Material Recovery Facilities (MRF)
- Hazardous: Sent to licensed facilities (Taloja)

Citizen Responsibilities Under SBM

- Segregate waste into Green bag (wet/organic) and Blue bag (dry/recyclable)
- Do not throw garbage on roads - penalty Rs. 200 to Rs. 500
- Use Red bin for sanitary waste and glass
- Register your housing society for bulk waste collection

Eligibility for SBM Benefits

- Individual households: Free toilet construction support in slum areas (Rs. 12,000 subsidy)
- Urban local bodies: Grants for SWM infrastructure based on city population
- NGOs: Can apply for SBM partnership for IEC (Information, Education, Communication) activities

RAG NOTE: Q: What is ODF++ certification? A: ODF++ means open defecation free with all toilets functional, well-maintained, and connected to sewerage system. Mumbai has ODF++ status. Complaints about non-functional public toilets: Call 1916.

2.2 AMRUT 2.0 (Atal Mission for Rejuvenation and Urban Transformation)

AMRUT 2.0 (2021-2026) aims to make all cities self-sustainable in water supply and sewerage management. Total outlay: Rs. 2.77 lakh crore nationally.

Focus Areas

Component	Target
Water Supply	100% piped water to all households
Sewerage & Septage	100% sewage treatment
Stormwater Drains	Reduce flooding
Green Spaces	Parks per ward
Non-motorized Transport	Cycling tracks, footpaths

Eligibility & Funding

- All cities with population above 1 lakh are covered
- Mumbai: Receives central funding under AMRUT for water/sewerage projects
- Citizens: No direct application; benefit through improved services
- Housing societies: Can apply for water recycling grants through BMC under AMRUT

AMRUT Reforms Required by Cities

- Online building permission system (Mumbai: MCGM's AutoDCR system)
- Online property tax payments (Mumbai: implemented)
- Credit rating of ULBs for municipal bonds
- Constitution of ward committees

2.3 Smart Cities Mission

Mumbai is NOT part of the Smart Cities Mission list. However, Solapur, Aurangabad, Nagpur, Nashik, Pune, Amravati, and Kalyan-Dombivli are Maharashtra's Smart Cities. Mumbai has its own parallel transformation programs.

Mumbai's Equivalent Smart Initiatives

- Integrated Command and Control Centre (ICCC) at BMC Headquarters
- CCTV surveillance network across the city
- Intelligent Traffic Management System (ITMS)
- Mumbai One portal: Integrated civic service platform
- Air Quality Monitoring Stations: Real-time data on mcgm.gov.in
- Flood sensor network: 50+ sensors across major flood-prone areas

Smart City Benefits for Citizens (Pune Example - for chatbot reference)

- Smart parking systems reducing time to find parking

- Smart streetlights with dimming based on footfall
- Solid waste monitoring with GPS-tagged vehicles
- Citizen engagement apps for real-time complaint tracking

RAG NOTE: Q: Is Mumbai a Smart City? A: Mumbai is not officially part of the central Smart Cities Mission, but BMC runs its own smart infrastructure initiatives including ICCC, intelligent traffic systems, and the Mumbai One portal for civic services.

PART 3

Water Supply & Sewerage - Technical Knowledge

Based on CPHEEO (Central Public Health and Environmental Engineering Organisation) manuals. This section provides technical background for answering citizen FAQs about water and sewage.

3.1 Water Supply System

Mumbai's Water Sources

Lake / Reservoir	District
Upper Vaitarna	Nashik
Middle Vaitarna	Palghar
Bhatsa	Thane
Tansa	Thane
Modak Sagar	Thane
Vihar	Mumbai
Tulsi	Mumbai
TOTAL COMBINED	-

Water Treatment Process (Standard)

19. Raw water from lakes transported via tunnels/aqueducts to treatment plants
20. Screening: Removal of large debris
21. Coagulation & Flocculation: Alum added, particles bind together
22. Sedimentation: Heavy particles settle
23. Filtration: Through sand/gravel/anthracite filters
24. Chlorination: Disinfection; residual chlorine 0.2-0.5 mg/L at consumer end
25. Optional: Fluoridation (not done in Mumbai currently)
26. Storage in reservoirs, then distributed

Water Quality Standards (IS 10500:2012)

Parameter	Acceptable Limit
Turbidity (NTU)	1
pH	6.5 - 8.5
Residual Chlorine (mg/L)	0.2 minimum
Total Dissolved Solids (mg/L)	500
Nitrates (mg/L)	45

Hardness as CaCO₃ (mg/L)	200
Iron (mg/L)	0.3
Coliform bacteria	Must be absent

Common Water Complaints & Technical Explanations

- Yellow/brown water: Usually due to pipe corrosion or disturbance of sediment. Flush tap for 2-3 minutes. If persists, call BMC.
- Smell in water: Chlorine smell is normal and safe. Other smells (sulphur/rotten egg) indicate contamination - do not drink, call BMC immediately.
- Low pressure: Can be due to peak hour demand, main line issues, or illegal connections. Check if neighbors have same issue.
- Hard water deposits (white scale): Normal in Mumbai; water hardness is within acceptable limits. Use water softener for appliances.

3.2 Sewerage System

Mumbai's Sewage Infrastructure

- Total sewer network: Approximately 2,000 km of sewer lines
- Sewage Treatment Plants (STPs): Worli, Bandra, Versova, Dharavi, Ghatkopar, Bhandup, Malad, Colaba, Trombay, Cheeta Camp
- Total treatment capacity: Approximately 2,400 MLD (Million Litres per Day)
- Sewage generated: Approximately 3,400 MLD (significant gap - storm drains carry overflow)

Sewage Treatment Process

27. Primary Treatment: Screening (bar screens), Grit removal, Primary settling (removes 60% suspended solids)
28. Secondary Treatment: Biological treatment - Activated Sludge Process (ASP) or Trickling Filters (removes 85-95% BOD)
29. Tertiary Treatment (where applicable): Filtration, UV disinfection, Nutrient removal
30. Sludge Treatment: Thickening, Digestion, Dewatering, Disposal
31. Treated water: Discharged to sea with MPCB consent / reused for horticulture

Sewage-Related Citizen FAQs

- Blocked drain in building: Owner's/society's responsibility up to junction with BMC line
- Blocked BMC sewer: Call 1916 or ward office - emergency response within 4 hours
- Sewage overflow on road: Emergency - call 1916 immediately; BMC deploys sewer sucker/jetting machine
- Septic tank pumping: For areas not on sewer network; call BMC approved contractors

RAG NOTE: Q: My area floods every monsoon due to drainage issues. What can I do? A: File a complaint with BMC ward office and MCGM portal citing flooding. BMC has a BRIMSTOWAD (Brihanmumbai Storm Water Disposal System) project for drainage upgrades. You can also contact your elected corporator to escalate. Keep records of flooding events with photos.

PART 4

Disaster Management & Emergency Preparedness

Based on NDMA (National Disaster Management Authority) guidelines. Mumbai faces multiple hazards: Floods (monsoon), Cyclones (coastal), Earthquakes (seismic zone III), and Heatwaves.

4.1 Flood Preparedness & Response

Mumbai Flood Risk Zones

Risk Level	Areas (Examples)
Very High Risk	Kurla, Sion, Dharavi, Hindmata, Andheri subway
High Risk	Bandra, Malad, Ghatkopar, Vidyavihar
Moderate Risk	Bandra-Kurla Complex, parts of Thane
Lower Risk	Malabar Hill, Nepean Sea Road, Peddar Road

Before Monsoon - Citizen Checklist

- Keep drain outside your house clear of debris
- Do not throw garbage into stormwater drains
- Identify nearest high ground / evacuation shelter in your area
- Keep emergency kit: Torch, medicines, documents (waterproof bag), water, dry food for 3 days
- Save BMC helpline (1916) and NDRF (011-24363260) numbers
- Check home for weak walls, leaking roofs before monsoon

During Flood - Safety Rules

- Do NOT walk through moving floodwater - even 15cm depth can knock you down
- Avoid contact with floodwater - contains sewage and pathogens
- Do NOT drive through waterlogged roads - engine damage and risk of being swept away
- Turn off electricity at main switch if water enters home
- Move to upper floors; do not shelter in basement during flooding
- Follow BMC alerts on Twitter (@mybmc) and IMD warnings

Flood Alerts System

- IMD Mumbai issues: Orange Alert (heavy rain), Red Alert (extremely heavy rain)
- Red Alert: Schools/colleges may be closed; avoid non-essential travel
- Orange Alert: Be cautious; monitor updates
- BMC Disaster Control Room: 022-22694727 (24x7 during monsoon)
- NDRF Helpline: 011-24363260
- Police Control Room: 100

Post-Flood Actions

- Do not enter building until certified safe by structural engineer
- Document all damages with photos for insurance claims
- Claim compensation: Contact Tehsildar/Collector office if declared disaster
- Health: Drink only boiled/treated water; risk of cholera, leptospirosis, typhoid
- Leptospirosis prevention: Avoid walking in floodwater; take Doxycycline if prescribed by doctor after exposure

RAG NOTE: Q: What is the BMC flood helpline number? A: BMC Disaster Control Room: 022-22694727. General helpline: 1916. During monsoon, BMC deploys 24x7 flood control rooms in each ward.

4.2 Earthquake Safety

Mumbai falls in Seismic Zone III (Moderate Damage Risk Zone). The region has experienced significant earthquakes historically. The Koyna earthquake (1967, 6.5M) caused damage in Maharashtra.

Drop-Cover-Hold - Standard Protocol

32. DROP to your hands and knees
33. Take COVER under sturdy table/desk, or against interior wall away from windows
34. HOLD ON until shaking stops; if no furniture, cover head with arms

Do's During an Earthquake

- If indoors: Stay inside; move away from windows, exterior walls
- If outdoors: Move to open area away from buildings, trees, power lines
- If in vehicle: Pull over away from overpasses/bridges; stay inside
- If in high-rise: Do NOT use elevators; expect fire alarms to activate

After an Earthquake

- Expect aftershocks - they can be damaging
- Check for gas leaks (smell); if yes, open windows, leave, do not use electrical switches
- Check for structural damage before re-entering building
- Contact NDRF if building is damaged: 011-24363260
- Helpline for rescue: 108 (Ambulance), 101 (Fire), 100 (Police)

Building Safety Audit (Mumbai)

- BMC conducts structural audit of buildings above 30 years old
- Buildings classified as C1 (dangerous) must be vacated immediately
- Buildings classified as C2 (major repairs needed) given timeline to repair
- Citizens can request structural audit at ward office

RAG NOTE: Q: How do I know if my building is earthquake safe? A: Request a structural audit from BMC or hire a licensed structural engineer. Buildings built after 2000 follow IS 1893 seismic code. Check if your building has a valid structural audit certificate (mandatory for buildings 30+ years in Mumbai).

4.3 Heatwave Advisory

Mumbai's coastal location moderates temperatures but heatwaves are increasing. NDMA defines heatwave as temperature 4.5 degrees Celsius above normal OR above 40 degrees Celsius in plains.

Heatwave Dos and Don'ts

- DO: Drink water every 30 minutes even without thirst; wear light-coloured loose cotton clothing; stay indoors 12pm-4pm
- DO: Use ORS (Oral Rehydration Solution) if sweating heavily; cover head outdoors
- DO NOT: Step out barefoot on hot ground; drink alcohol/tea/coffee in excess during heatwave (dehydrating)
- DO NOT: Leave children or elderly or pets in parked vehicles

Heat Stroke - Emergency Recognition

- Signs: Body temp above 40C, no sweating despite heat, confusion, rapid pulse, red hot dry skin
- Action: Call 108 immediately; move person to shade; apply ice/cold water to neck, armpits, groin
- Do NOT give water to unconscious person

Vulnerable Groups - Extra Care Needed

- Elderly above 65 years
- Children below 4 years
- Outdoor workers (construction, delivery, street vendors)
- People with chronic illness (heart disease, hypertension, diabetes)

RAG NOTE: Q: Where are cooling centres during heatwave in Mumbai? A: BMC activates cooling centres at select ward offices, community halls, and public buildings during IMD-declared heatwave periods. Check @mybmc on Twitter or call 1916 for nearest location.

PART 5

Legal Framework - Maharashtra & Mumbai

Key legislation governing civic life in Mumbai. Note: Legal information here is for general awareness only. For specific legal matters, consult a qualified advocate.

5.1 Development Control & Promotion Regulations (DCPR 2034)

DCPR 2034 governs all development and construction in Mumbai. It replaced the earlier DCR 1991. It aligns with Mumbai Development Plan 2034.

Key Concepts

Term	Definition
FSI (Floor Space Index)	Ratio of total built-up area to plot area. Determines how much can be built.
TDR (Transfer of Development Rights)	Additional FSI received for surrendering land for roads/reservations
Premium FSI	Additional FSI purchased by paying premium to MCGM
Fungible FSI	35% extra FSI available for residential; 20% for commercial, on payment
Setback	Mandatory open space between building and plot boundary
Marginal Open Space	Open space to be left on sides and rear of building
Amenity Space	Areas reserved for public amenities in layout developments
Built-up Area	Area under roof including walls (different from carpet area)
Carpet Area	Actual usable floor area within walls (as per RERA)

FSI Regulations Summary (Island City)

- Base FSI: 1.33 for residential; 1.33 for commercial
- With TDR: Can reach 2.0-2.5 depending on road width
- With Premium + Fungible: Can reach 3.0+ in some cases
- Coastal Road: Special development regulations apply
- Heritage areas: Reduced FSI and strict facade controls

DCPR Important Provisions

- Rule 33(7): Redevelopment of dilapidated/cessed buildings
- Rule 33(5): Slum Rehabilitation Scheme (SRS)
- Rule 33(9): Government/Semi-government housing redevelopment
- Rule 58: Heritage building regulations
- Rule 67: Accessibility provisions for disabled persons

RAG NOTE: Q: What is the difference between FSI and TDR? A: FSI (Floor Space Index) is the basic permissible construction ratio on your plot. TDR (Transfer of Development Rights) is additional FSI you can

receive or purchase - given to landowners who surrendered land for public purposes. TDR can be loaded on other plots in defined receiving zones.

5.2 Maharashtra Rent Control Act, 1999

The Maharashtra Rent Control Act 1999 governs landlord-tenant relationships for most residential and commercial properties in Maharashtra. It replaced the earlier Bombay Rents, Hotel and Lodging House Rates Control Act, 1947.

Applicability

- Applies to: Properties with monthly rent below Rs. 3,500 (in Greater Mumbai) if rented before the Act
- Does NOT apply to: Properties rented after Act (market rent applies), properties rented at Rs. 3,500+ monthly at time of Act
- Practically: Most new rentals in Mumbai are outside Rent Control; governed by contractual agreement

Key Tenant Rights (for protected tenancies)

- Protection from eviction except on specific grounds (personal use, major repairs, non-payment of rent)
- Rent cannot be increased arbitrarily - increases governed by formula
- Tenant can transfer tenancy to direct family members on death
- Right to make minor repairs and deduct from rent (with notice)

Key Landlord Rights

- Right to evict for non-payment of rent (after 3 months arrears)
- Right to take possession for genuine personal use (landlord/family)
- Right to evict for causing nuisance to other tenants
- Right to evict if tenant sublets without permission

Leave and Licence (Modern Rentals)

- Most Mumbai rentals are on Leave and Licence (L&L) basis - NOT covered by Rent Control
- L&L agreement: Typically 11 months; renewable
- Must be registered with Sub-Registrar office (mandatory for agreements above 12 months)
- Registration fee: 0.25% of total rent + deposit amount
- Online registration: igrmaharashtra.gov.in

RAG NOTE: Q: My landlord is refusing to renew my Leave and Licence. What are my rights? A: In a Leave and Licence, the owner has the right to not renew. If the period has expired, you must vacate. Unlike Rent Control tenancies, L&L does not give the licensee the right to stay beyond the agreed period. If the landlord accepted rent after expiry, they may have created a new implied agreement - consult a lawyer.

5.3 Mumbai Municipal Corporation (MMC) Act, 1888

The MMC Act governs the powers, structure, and functions of BMC. It defines what BMC can and cannot do, citizen rights, and penalties for violations.

Key Sections Relevant to Citizens

Section	Subject
Section 61	Obligatory duties of BMC
Section 63	Discretionary functions
Section 229	Property tax levy
Section 354	Penalties for unauthorized construction
Section 381AA	Structural audit of buildings
Section 471	Encroachment on public roads
Section 506	Right of appeal

Citizen Obligations Under MMC Act

- Keep footpath/road in front of your property clean
- Do not encroach on public land or footpath
- Pay property tax by due date
- Report births and deaths (for certificate issuance)
- Obtain building permission before construction
- Connect to BMC drainage system (not create own disposal)

RAG NOTE: Q: Can BMC demolish my property without notice? A: BMC can demolish structures on public land or posing immediate danger without prior notice (Section 351). For illegal construction on private land, BMC must give a Show Cause Notice and allow 7 days for response before demolition proceedings. Emergency demolitions of dangerous structures can happen without notice under Section 354B.

Quick Reference - Emergency Numbers & Key Portals

6.1 Emergency Helpline Numbers

Service	Number
Police	100
Fire Brigade	101
Ambulance (MEMS)	108
BMC General Helpline	1916
BMC Disaster Control	022-22694727
NDRF Rescue	011-24363260
Women Helpline	181
Senior Citizen Helpline	1090
Child Helpline	1098
Anti-Corruption	1064
Electricity (Adani/BEST)	19122 / 1912

6.2 Key Online Portals

Portal	URL
MCGM / BMC	mcgm.gov.in or portal.mcgm.gov.in
Maharashtra Government	maharashtra.gov.in
MahaRERA	maharerahousing.com
IGR Maharashtra	igrmaharashtra.gov.in
MHADA	mhada.gov.in
MMRDA	mmrda.maharashtra.gov.in
DigiLocker	digilocker.gov.in
RERA India	rera.maharashtra.gov.in

6.3 BMC Ward Office Locations

Mumbai is divided into 24 wards: A (Colaba/Fort), B (Mazgaon), C (Marine Lines), D (Malabar Hill), E (Byculla), F/S & F/N (Dadar/Sion/Mahim), G/S & G/N (Worli/Dharavi/Bandra W), H/W & H/E (Bandra E/Santacruz), K/W & K/E (Andheri W/E), L (Kurla), M/W & M/E (Govandi/Mankhurd), N (Ghatkopar), P/S & P/N (Goregaon), R/S & R/C & R/N (Borivali/Dahisar), S (Bhandup), T (Mulund)

To find your ward: Enter your address at mcgm.gov.in > Find My Ward. Ward office handles all local property, water, building, and grievance matters.

Part 7: RAG Chunking & Ingestion Guide

Use this section to guide how to split and index this document for your RAG pipeline.

7.1 Recommended Chunk Strategy

Chunk Type	Method
Section chunks	Split at H2 level (one chunk per H2)
Q&A chunks	Extract each RAG NOTE block as separate QA chunk
Table chunks	Keep table with its H3 heading
Process chunks	Keep numbered steps as one chunk

7.2 Metadata to Add to Each Chunk

- source_doc: 'Mumbai Civic RAG Knowledge Base v1.0'
- domain: one of [property_tax, water, building, disaster, legal, schemes, emergency]
- authority: one of [MCGM, NDMA, MoHUA, Maharashtra_Govt, CPHEEO]
- last_verified: '2025' (update when re-verified)
- geographic_scope: 'Mumbai' or 'Maharashtra' or 'India'

7.3 Query Types This Document Covers

- Procedural: 'How do I apply for...', 'What are the steps to...'
- Fee-related: 'How much does it cost to...', 'What is the fee for...'
- Timeline: 'How long does it take to...', 'When is the deadline for...'
- Contact: 'Where do I call for...', 'Who is responsible for...'
- Emergency: 'What do I do during...', 'Where do I go if...'
- Legal rights: 'Can BMC...', 'What are my rights if...'
- Scheme eligibility: 'Am I eligible for...', 'How do I benefit from...'
